**THE 24th ANNUAL PRODUCTION SALE - BACKED BY 74 YEARS OF SUNNYHILL ANGUS BREEDING!**

Plan now to be on hand Saturday, March 8, 2014, for the Sunnyhill Angus Farm Generations of Genetics 24th Annual Production Sale at the farm near Fairview, Illinois. Featured will be another outstanding group of bulls, both yearlings and two-year-olds, including some of the very best ever produced at Sunnyhill Farm. Established in 1940 with AHIR records since 1976, these bulls are fortified with the finest in breeding and performance selection. The pedigrees are stacked with leading sires for a combination of calving-ease, performance, maternal strength and carcass merit. In addition, an outstanding set of females will sell including cow/calf pairs, bred cows and open and bred heifers, plus commercial females. Certainly this is one sale you will not want to miss.

It is a sincere pleasure and privilege to work with Kent, Wendy and Emily Schleich in the presentation of this solid sale offering that is sure to please. If you have never been to Sunnyhill, now is the time to attend. If you have been previously, you will definitely want to return.

Please don't hesitate to call on us at the American Angus Hall of Fame, if we can be of assistance in any way. We are here to serve.

Sincerely,

Tom Burke Kurt Schaff Jeremy Haag

### A Little Extra Info

**Weaned Calf Value (\$W):** an index expressed in dollars per head, is the expected average difference in future progeny performance for preweaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

**Feedlot Value (\$F):** an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning performance compared to progeny of other sires.

**Grid Value (\$G):** an index expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

**Beef Value (\$B):** an index expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B value combines the contributions of \$F and \$G.

*Greetings from Sunnyhill Angus*

Welcome to our 24th annual production sale. Hopefully the weather will cooperate on March 8. However, the weather is definitely different than it used to be. I'm not sure of the cause, but this past year's drought and this year's winter have certainly been trying on man and beast. We seem to be behind more than usual! For that reason, we apologize for any errors or delays in the catalog and any missteps in communication.

We were very pleased with the results of our breeding program this past spring and summer, but this may not have been the best year to calve so many in the middle of one of the worst winters I can remember.

In farming and ranching, this seems to be the time to build operations on flexibility, sustainability and profitability. It has been our attempt through a sound, well thought out breeding program to do just that. How the Angus cow can raise a calf and rebreed in last year's sweltering heat and poor water and then walk on ice, stand in snowy frigid conditions and produce a beautiful new calf is simply amazing. Years of genetic selection and culling help this process.

We hope you can be with us for our 24th sale and we hope the Lord has blessed you as much as He has us with family and friends.

*Sincerely,*

*Kent, Wendy & Emily Schleich*

**Yearling Bulls**

- The bulls were raised in a commercial type environment.
- The bulls were evaluated and fed in a large contemporary group.
- Complete performance info will be updated on sale day including scrotal, yearling weight and ultrasound data.
- The bulls are semen tested by Bushnell Vet service and are guaranteed breeders.
- We encourage pick up of your bulls on sale day and offer a \$75 pick up discount, but for a fee, we can board your **YEARLING** bull, at your risk, until May. We also offer a volume discount on 2 or more bulls. We will be unable to board 18 month and 2 year old bulls for more than a week.
- Visitors are welcome and encouraged to inspect the cattle at any time. Call, write or email for more information.
- If you can't make the sale, we will be glad to visit with you over the phone and make purchasing arrangements. Jerry Cassady, Kurt Schaff, Phil Schooley or the other ring men will also be glad to help you with information about the cattle at any time and with bids on sale day. Their phone numbers are on the inside cover.

**\*\*Sunnyhill Angus may keep a 1/3 semen interest in several of the bulls selling. The buyer gets full possession and salvage value. Notes on which bulls these are will be available sale day.**
