Greetings from Sunnyhill Angus:

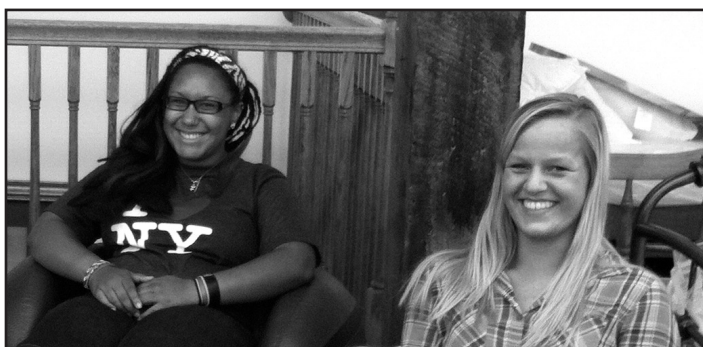

Welcome to our 25th Annual Production Sale! As they say, time flies when you're having fun and we have really enjoyed raising Angus cattle and meeting fellow cattle producers for the 25 years we have been having a sale and for the years prior.

We are celebrating this special anniversary with what I am sure is our best and deepest offering ever. Our herd is built on the basics of the cattle industry, that being a live calf, years of selection pressure on a balance of production traits including carcass value and all tied together in an easy to look at animal with longevity and a good disposition. From commercial and registered producers alike, the reports on our cattle's performance are rewarding.

We invite you to come celebrate our 25th sale with us and see for yourself what other producers like yourself have experienced from our program and reap the economic benefits of a herd built on years of meaningful performance records and a minimum of marketing hype.

As always, visitors are welcome. Call or email for further information. Updates will be ready the week before sale day. And thank you for your business in the past! We hope to see you sale day.

*Sincerely,
Kent, Wendy & Emily Schleich*

Emily started her first year of junior college and we also welcomed "daughter" number two, Thesi Knop, an exchange student from Berlin, Germany. She is attending Valley High School and will be with us until June.

We receive a lot of nice comments each year, many of which refer to the calving ease of the bulls and their good dispositions.

Here is one:

Jerry Fecht told us that he has been getting along so well calving heifers out of the Really Windy bull he bought last year, that he may decide not to use AI on the heifers next year and just stick with the bull.

Fall and 2 year old bulls:

The older bulls were developed on a very high roughage and pasture ration.

Most of these bulls are heifer bulls. Be sure to check out the nice trio of Really Windy sons.
